

## Corporate Overview

Virtual Computing Technology (VCT) is a certified Women Owned Small Business (WOSB) providing technical and professional services across US Federal Agencies, Department of Defense, Commercial Organizations, and State and Local Government.

Headquartered in San Diego, California, VCT is a leading provider of innovative IT solutions, technology management, staffing and engineering services that deliver superior results to government and commercial clients. Combining deep industry expertise with best-in-breed technologies, VCT knows how to deliver solutions that help government organizations reduce cost, improve profitability, build competitive advantage and deliver the best overall value. We are recognized for technical excellence, qualified and well-trained personnel, quality assurance, and a disciplined program management process. Our management approach ensures that the government receives consistent, well-thought out proven services, and products that introduce savings ideas for implementation and then document the process for future use. Our people are our most important asset and we invest heavily in recruiting and retaining industry-leading talent.

### Government Partner Alliances

We have established a strategic network of partnership with leading technology companies to meet the unique requirements of each Government agency, regardless of size or complexities.
